**About Austin Engineering:** Austin Engineering Limited is an engineering company with manufacturing facilities in Brisbane and Perth. The Brisbane facility provides fabrication facilities servicing the mining, oil, gas and industrial sectors. Key product lines include structural steel, piping, mineral processing equipment, potshells and superstructures. The Perth facility (formerly Johns Engineering) designs and manufactures products used in the resources industry including dump truck bodies, excavator buckets, materials handling equipment and large service vehicles. Austin own rights to innovative welding processes which are being introduced to improve welding productivity, coupled with robotic applications to suit product lines, general fabrications and any repetitive production processes.
